---

Jim, I just got your voicemail, and quite coincidentally, just got off the phone with Eric B regarding getting the requested information. He said Chip was writing a response to your request for clarification from EPA, and it sounds like you have now received that confirmation from Chip. Thanks to both Chip and yourself for pushing this through.

Teresa will be standing by for receipt of the packages, but (b) (6), so if it's possible to get it by then that would be greatly appreciated. Thanks!
